

TRANSFORMING CONSTRUCTION WITH OFF-SITE METHODS AND TECHNOLOGIES

CONFERENCE PARTNERSHIP OPPORTUNITIES

18 - 20 August 2026 | Northumbria University, UK

Presented by Northumbria University in collaboration with the
University of New Brunswick and CIB

On behalf of the Transforming Construction with Off-site Methods and Technologies organising committee, we are delighted to invite you to partner in this collaborative event with Northumbria University in Newcastle upon Tyne, the University of New Brunswick Off-site Construction Research Centre (OCRC), and CIB International Council for Research and Innovation in Building and Construction.

The conference will be held in Newcastle Upon Tyne, UK, from August 18-20 2026, at Northumbria University. Plenary sessions, presentations of peer-reviewed papers, engaging keynote speakers, technical workshops and industry case studies will inform individuals and organisations of the latest uses of innovative technologies and off-site methods that are critical to the future of the construction industry.

This conference presents a unique opportunity for your organisation to gain exposure to a wide range of professionals, academics, and government delegates from across the UK and around the world. The conference will be held at Northumbria University Business and Law School (CCE1), located in Northumbria University's vibrant city centre campus. Accommodation is available at a variety of hotels around the city, with preferential rates available for conference delegates.

We appreciate your interest in supporting this conference and look forward to welcoming you to Newcastle Upon Tyne this August! Please connect with us directly with any questions you may have by contacting tcot.2026@northumbria.ac.uk

CONFERENCE CO-CHAIRS

Ala Suliman, PhD, FHEA
Assistant Professor, Construction Project Management (CPM)

Richard Laing PhD; PgCert(Hum); MRICS, FHEA
Professor, Academic Lead for IC3

A photograph of the Northumbria University Newcastle building, a modern structure with a prominent glass and metal facade. The building features a large, curved glass section on the left and a more angular, multi-level structure on the right. The university's name and 'NEWCASTLE' are visible on the right side of the building. The foreground is filled with green foliage, and the sky is overcast.

SPONSORSHIP PARTNER BENEFITS

The 2026 Transforming Construction with Off-site Methods and Technologies (TCOT 2026) conference offers a variety of partnership opportunities to advertise your organisation and/or products to members of the Architecture, Engineering, Construction, and Facilities Management industry. Our delegates will include industry leaders, academics, students and government and public sector officials. Partnering with this conference will allow your organisation to benefit from association with Northumbria University, IC3 (International Centre for Connected Construction), the University of New Brunswick OCRC, and CIB, while reaching out to a unique, captive audience in an engaging environment. There are many different partnership packages and benefit opportunities available at the conference, and we welcome the opportunity to discuss custom partnership packages that best suit your needs. Your partnership or exhibition stand will:

Connect you with researchers in the field of reality capture and construction from the UK and around the world

Demonstrate investment in and support of innovation and research

Increase your brand awareness

Promote your product or service to a specialist audience

Position your organisation as a leader in the civil engineering sector

Provide networking opportunities with existing and potential clients

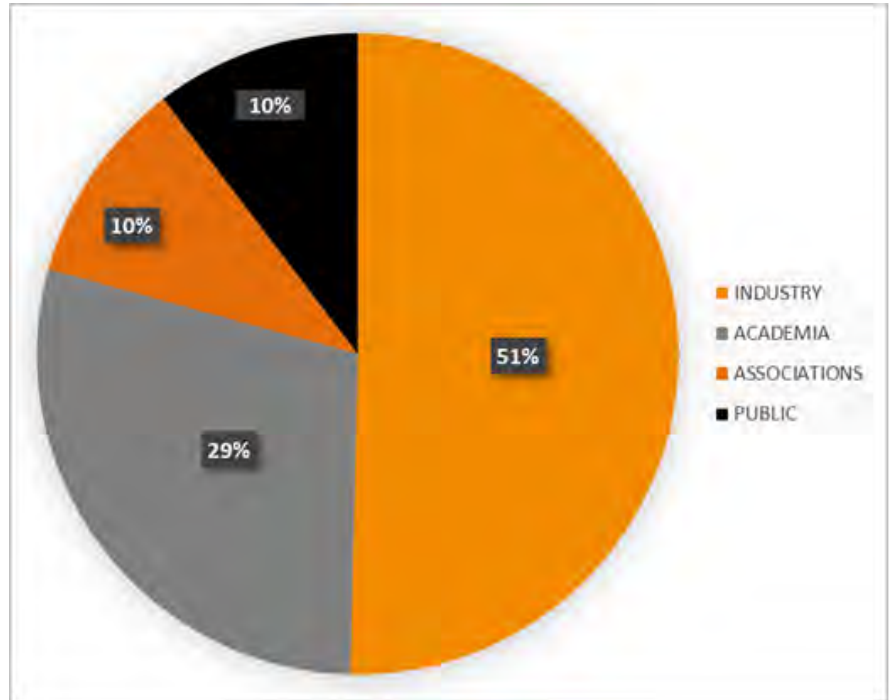

All partnerships will be announced on social media, in the bi-weekly IC3 e-bulletin, and to CNBR and CIB professional networks. Exhibitors will also receive one complimentary conference registration as part of their ticket.

2024 CONFERENCE DELEGATES

A breakdown of conference delegates from TCOT 2024, which took place at the University of New Brunswick, Canada, is as follows:

INDUSTRY

Volumetric Building Companies
Carleton Immersive Media Studio
Meta Bytes North America Inc
GLP CANADA
PACE Building Technologies
CSA Group
Modular Building Institute
Fero International Inc.
Ironwood Manufactured Homes
Tymba Systems
Engineering by Houghton
Atkins Realis
MacGregors Industrial Group
Stack Modular
Irving Oil
Arabian Arch Trad. & Cont.
Premiere Plumbing & Heating
EllisDon
CPCI
Housing Hub of New Brunswick
STILES Machinery
Homag Canada
Green Metrics Technologies
SEMA GmbH
SEMA Timber Construction Software
WoodWorks Atlantic
UNB Off-site Construction Research Centre
OffsiteNZ
NGEN Canada
Roberts Group
Livingston Steel
AtkinsRéalis
Nine Yards Studio
720 Modular
Wood Science and Technology Centre
Kent Homes
Pomerleau Inc.
Bird Construction
HOK
UNB-RIDSAI
WZMH Architects

ACADEMIA

Toronto Metropolitan University
University of New Brunswick
Uni of Wolverhampton
Hong Kong Center for Construction Robotics
University of Manitoba
Carleton University
McKenna Institute
Morgan State University
University of British Columbia
Okanagan
Newcastle University
Universit of Salford
York University, Lassonde
School of Engineering
University of Alberta
Northumbria University
University College London
University of Windsor
University of Waterloo

ASSOCIATIONS

New Brunswick Housing Corporation
Canadian Precast Concrete Institute
Canadian Society for Civil Engineering

PUBLIC

Housing New Brunswick
National Research Council - IRAP
National Research Council Canada
Atlantic Canada Opportunities Agency
Natural Resources Canada
NBDTI
Government of New Brunswick

PARTNERSHIP PACKAGES

£6,000

1 AVAILABLE
GALA DINNER SPONSOR

£3,000

3 AVAILABLE
DRINKS RECEPTION SPONSOR

£1,500

6 AVAILABLE

TRADE SHOW EXHIBITION

Industry representatives are invited to participate in our trade show which is located adjacent to the conference lecture theatres and catering areas. Exhibition stands sized 6' x 2' are available for £1,000 early-bird pricing, and trade show exhibitors will receive one complimentary conference registration as standard.

PACKAGE BENEFITS

	 PLATINUM SPONSOR	 GOLD SPONSOR	 SILVER SPONSOR
Complimentary conference registrations	Three	Two	One
Sponsored Prize (one per sponsor)	Best overall paper	Best overall posters	Best student papers and posters
Sponsorship of conference gala dinner, logos and banners at dinner, opportunity to make speech	X

£1,000

3 AVAILABLE

- Logo on conference website
- Logo on conference app
- Corporate name and logos prominently displayed by coffee stations throughout conference

STUDENT SUPPORT PARTNER

£500

UNLIMITED

- Logo on conference website
- Logo displayed on each student delegate pass
- Verbal recognition & slide at opening ceremony

ADDITIONAL PARTNERSHIP OPPORTUNITIES (CONTINUED)

TECHNICAL TOUR PARTNER

£1,000

AVAILABLE ON REQUEST

We invite companies in the offsite construction sector to host conference attendees at their premises as part of the event's activities, offering an excellent opportunity to showcase their innovations and enhance their visibility within the regional construction community. Companies interested in hosting a site visit are kindly asked to cover transportation costs from the conference venue to their premises and to contact **TBC**

OUR UNIVERSITY

Northumbria University is a research-intensive University that unlocks potential for all, changing lives regionally, nationally and internationally.

Named UK University of the Year 2022 by Times Higher Education and Modern University of the Year 2025 by The Times and The Sunday Times, Northumbria University is based in Newcastle upon Tyne.

Newcastle has an international airport that is well connected to major travel hubs, with a Metro train service connecting the airport and the city centre by a 20-minute journey. The city is also well connected with other major cities in the UK by bus and train, making it very accessible to national and international delegates to attend the conference.
